

# MORE THAN CLEAN CLEANPLUS™

## Unibloc® QuickStrip® CleanPlus Pumps

## UNIBLOC® CLEANPLUS™ PUMPS

Unibloc's **QuickStrip® CleanPlus** Pumps are the first to eliminate damage from rotor-bolts, eliminate the risk of plastic wearing into the process, support Clean-in-Place (CIP), and slash manual cleaning cycles from hours to minutes.

### Improve Employee Safety

Swing arm supports the heavy cover during cleaning, improving worker safety and efficiency.

### Improve Cleaning Times

Tool-free disassembly and minimal parts slash COP times.

### Improve Product Safety

Stainless-steel, bolt-free rotors won't wear plastic into your product stream and eliminate the risk of bolts becoming a foreign object.

### CIP COMPATIBILITY

Unique in the industry, the CleanPlus pump's patented FlushCap® design stabilizes the rotors without bolts and supports CIP processes. FlushCaps ensure the cleaning solution reaches all areas of the pump for thorough sanitation.

# ELIMINATE FOREIGN MATERIAL

## **ELIMINATE FOREIGN MATERIAL**

Fewer small components help ensure food safety. Stainless-steel, bolt-free rotors won't wear plastic into your product stream and eliminate the risk of bolts becoming a foreign object.

## **SANITATION CREW-PROOF**

Unibloc's patented and proven QuickStrip design targets the sanitation cycle, the cause of most damage to equipment and a common source of foreign material. Simple, repeatable, one-way assembly guarantees proper performance and reduces foreign material from improper handling.

## **NO ROTOR BOLTS**

Improper torquing of rotor bolts can lead to catastrophic pump damage. The Unibloc CleanPlus Pump's bolt-free design eliminates that risk.

## **IMPROVED WORKER SAFETY**

The innovative Safety Swing Arm makes disassembly for cleaning easier and safer than ever. The swing arm supports the cover during sanitation, improving worker safety and efficiency.

# NO MORE DOWNTIME FROM MIS-TORQUED ROTOR BOLTS.

Customers already using Unibloc® also have the option for a Unibloc® CleanPlus retrofit. Ask us about our CleanPlus upgrade program.

Unibloc Hygienic Technologies provides a broad portfolio of powerful solutions for companies around the world.
